

Ultrasonic Pest Repeller PR-105

1. Plug the Makony Ultrasonic Pest Repeller to the power socket 2.5 - 4 feet from the floor, it should be vertical to the floor.
2. The device should be used 24 hours a day.
3. The device should be far at least 6 feet from furniture, carpet, curtain etc.
4. Don't plug the device next to T.V, Radio, speakers or any sound device.
5. it's normal that in the few first weeks of using the device the mouse and vermin will increase. Because they are running away their living environment as they hear the ultrasonic sound.
6. Please try to keep doors and windows close, to increase the effect of the ultrasonic waves
7. To increase the effect, you should use several devices in order to cover the full area of your home, office etc.
8. **CAUTION: DO NOT** clean the device with water or damp cloth. **DO** Use dry and soft cloth.
